

- 4 The production possibility curves (PPCs) show the abilities of four economies to produce wheat and rice.

Which PPC has the lowest opportunity cost for producing wheat?

- 5 The diagram shows a supply curve for chicken.

What explains why the supply curve for chicken slopes upwards?

- A An increase in the demand for chicken will bring about a rise in supply.
- B Farmers' productivity rises as the price rises.
- C Increased production leads to a reduction in costs.
- D The cost of additional chicken production rises as output increases.
