

- 7 A camera drone of mass 1.20 kg hovers at a fixed point above the ground. The drone has four propellers.

In a time of 1.00 s, each propeller pushes a mass of 0.400 kg of air vertically downwards.

Assume that the air above the propellers is stationary.

What is the speed of the air leaving each propeller?

- A** 0.750 ms^{-1} **B** 3.00 ms^{-1} **C** 7.36 ms^{-1} **D** 29.4 ms^{-1}

- 8 A box rests on the Earth, as shown.

Newton's third law describes how forces of the same type act in pairs. One of the forces of a pair is the weight W of the box.

Which arrow represents the other force of this pair?
