

- 17** The diagrams show UK Government total spending and welfare spending in £ billions between 2005 and 2014.

What can be concluded from the diagrams about UK Government spending during the period 2005 to 2014?

- A** Both forms of spending were cut in 2014.
 - B** Both total and welfare spending have risen continuously.
 - C** In 2005 welfare spending made up a quarter of total spending.
 - D** Non-welfare spending has always exceeded welfare spending.
- 18** Health services in an economy are provided by private clinics that charge high fees. The government decides health services should be provided for everyone, not based on ability to pay.
- Which direct action should it take?
- A** Build government clinics to compete in the market.
 - B** Close private clinics where provision by the market is inadequate.
 - C** Increase the taxes on profits made by private clinics.
 - D** Nationalise private clinics and remove charging.
