13 A uniform rod XY of weight $10.0\,\mathrm{N}$ is freely hinged to a wall at X. It is held horizontal by a force F acting from Y at an angle of 30° to the horizontal, as shown.

What is the value of *F*?

- **A** 5.0 N
- **B** 8.7 N
- **C** 10.0 N
- **D** 20.0 N
