25 The diagram shows a sketch of a wave pattern, over a short period of time.

Which description of this wave is correct?

- **A** The wave is longitudinal, has a wavelength of 20 cm and is stationary.
- **B** The wave is transverse, has a wavelength of 20 cm and is stationary.
- **C** The wave is transverse, has a wavelength of 40 cm and is progressive.
- **D** The wave is transverse, has a wavelength of 40 cm and is stationary.
- 26 Which statement about a light wave and a sound wave is correct?
 - A Both can be polarised.
 - **B** Both can travel through free space.
 - **C** Both have a frequency inversely proportional to their wavelength.
 - **D** Both have an intensity proportional to their amplitude.
