16 Which group of statements applies only to the liquid state?

Α

atoms separated by many atomic diameters positions of atoms can change atoms vibrate

В

atoms separated by many atomic diameters atoms are in fixed positions atoms are in continuous, random motion

C

atoms can touch each other positions of atoms can change some random motion of atoms

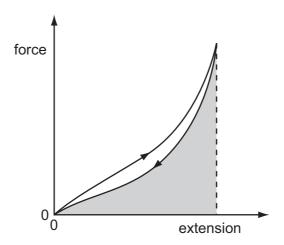

D

atoms can touch each other atoms are in fixed positions some random motion of atoms

17 A piece of copper is drawn into a continuous wire.

What behaviour is the copper exhibiting?

- A brittle only
- B elastic only
- C plastic only
- **D** both brittle and elastic
- **18** The force-extension graph of a particular sample of rubber as a load is applied and then removed is shown.

What does the shaded area represent?

- **A** the energy transformed into heat during the complete cycle
- B the recoverable elastic potential energy stored at maximum extension
- C the work done on the sample while loading
- **D** the work done on the sample while unloading
