23 In the diagram D_1 and S_1 are the initial demand and supply curves of the UK pound (\mathfrak{L}) on the foreign exchange markets.

What will cause the demand curve to shift to D₂ and the supply curve to S₂?

- A an appreciation of the pound
- B an increase in incomes in the US
- **C** an increase in the price level in the US
- D a decrease in UK interest rates
- 24 There was an increase in the value of the US dollar against the Australian dollar.

What might be a result of this?

- A an increase in the volume of exports from the US to Australia
- B an increase in the volume of imports to the US from Australia
- C fewer people from the US take holidays in Australia
- D more people from Australia take holidays in the US
- 25 Which combination of changes in export prices and import prices would result in an improvement in a country's terms of trade?

	average export prices	average import prices
Α	decrease by 5%	decrease by 10%
В	decrease by 10%	decrease by 5%
С	decrease by 10%	increase by 5%
D	increase by 5%	increase by 10%
