15 A block of weight *W* is pulled up a rough slope by a force *F*.

When the block has moved a distance *x* along the slope, it has risen height *h*.

Which expressions give the amount of work done on the block and the amount of gravitational potential energy gained by the block?

	work done	gravitational potential energy
Α	Fx	Wh
В	Fh	Wx
С	Wx	Fh
D	Wh	Fx

16 An object is thrown into the air.

Which graph shows how the potential energy E_p of the object varies with height h above the ground?
