	e lengths of the leaves of another type are also modelled by a normal distribution. A sc	
mea long	e lengths of the leaves of another type are also modelled by a normal distribution. A scasures the lengths of a random sample of 500 leaves of this type and finds that 46 are less that and 95 are more than 8 cm long. Find estimates for the mean and standard deviation of the lengths of leaves of this type.	n 3 c
mea long	asures the lengths of a random sample of 500 leaves of this type and finds that 46 are less that g and 95 are more than 8 cm long.	n 3 c
