- 25 What is an advantage of absorption costing?
 - A It helps to determine a product's selling price.
 - **B** It is used to improve operational efficiency.
 - **C** It makes it easy to analyse costs at different production levels.
 - **D** It takes into account only variable costs.
- **26** The following information is forecast for the next month.

opening inventory	20 300 units
closing inventory	22 500 units
marginal cost profit	\$90 600
absorption cost profit	\$100 400

What is the overhead absorption rate per unit?

- **A** \$4.03 **B** \$4.45 **C** \$4.46 **D** \$4.95
- 27 X Limited has budgeted monthly overheads of \$125 000. Its overhead absorption rate is \$5 per machine hour. In July there was an under-absorption of overheads of \$1000.

Which changes from budgeted data caused this to happen?

	overheads	machine hours
Α	\$500 higher	100 hours less
В	\$500 lower	100 hours more
С	\$750 higher	50 hours more
D	\$750 lower	50 hours less

28 Which changes result in a decrease in the margin of safety?

	unit variable cost	total fixed costs
Α	decrease	decrease
В	decrease	increase
С	increase	decrease
D	increase	increase
